

Environmental Policy

The policy of Oil Recoveries Limited is to encourage respect for the environment and the adoption of an environmentally responsible attitude in the fulfilment of business objectives.

The pursuit of this policy requires Oil Recoveries Limited to focus attention upon the following key principles:

Environmental Legislation - Oil Recoveries Limited complies with all relevant environmental legislation, regulations, codes of practice, and other regulations to which it subscribes.

Management System - Oil Recoveries Limited has implemented an environmental management system. We have set environmental Objectives and targets and we monitor performance, to enable continual improvement of the environmental management system.

Communication - Oil Recoveries Limited promotes awareness amongst employees (and where applicable sub contractors) of the importance of environmental issues to the business, and the environmental impact of the business activities. This Policy is available to the public and stakeholders on request.

Resources and Materials - Oil Recoveries Limited will conserve resources and materials, and manage their use efficiently, through implementation of waste minimisation programmes, and by encouraging the use of recycled materials, where appropriate.

Operation of the Business

Oil Recoveries Limited operates the business efficiently, with due consideration for environmental, social and economic impacts and values, and our relative competitive position.

To satisfy customer requirements we provide The Collection and Segregation of Used Oils, Used Lubricating Oils, Industrial Lubricants, Fuels, Marine Waste and Automotive Waste i.e. Used Filters, Rags, Antifreeze, and Batteries to the marketplace which meet our customers stated, perceived and implied requirements to improve customer satisfaction

A high value will be placed on the control and improvement of environmental performance, and the prevention of pollution.

The environmental impact of significant changes to equipment or processes is assessed as part of the approval process.

Products - The Processing of the products that Oil Recoveries Limited supply include consideration of environmental impact throughout the product life cycle.
